

SPOTCLEAN®
PROHEAT® ADVANCED

Powerfully clean the toughest stains using hot water

Introducing the new BISSELL® SpotClean ProHeat® Advanced Portable Carpet and Upholstery Deep Cleaner. This powerful machine features ProHeat® Technology, which uses an integrated heater that heats water temperature to 59° C in about 30 seconds. ProHeat® Technology actively heats the clean water and solution to dissolve sticky, oily stains and waxy messes like lipstick. In addition, BISSELL® SpotClean ProHeat® Advanced deep cleaner has powerful spray and suction to remove tough pet and everyday messes across soft surfaces like carpet, upholstery, auto interiors, and more.

The lightweight and compact design allows for easy storage in small spaces and the extra long 1.7 m built-in hose allows you to reach all around your home. The additional HydroRinse tool is included to conveniently clean the hose after each use. Also included is a trial-size bottle of our powerful, all-in-one Spot & Stain Pro Oxy cleaning solution to permanently remove stains.
